

Jonathan Kutej 4:14-CR-74-Y

ps 1 of 4 47601177

Today after talking to Lt. Buck
about the situations that we
have been dealing with for the
last 5 or 6 day of complete and
blatant disrespect and threats
to my life and limb. That
I have decided I am no longer
going to bring these matters
to Mr Goldsby "our counselor"
because since I have done so.
The guards have been retaliating
against me. I have not been
written up because I have done
nothing but express my concerns
and defended my rights. This
situation that I am focusing
on now is one were I was
singing a song ^{song} called "walk it out"
one that I have heard many times
in Redneck bars and to myself
and kinda dancing my way up
the stairs after 6 hour when Woods
called me a racist redneck because
what I was doing I took extreme
offense of this and I feel it
was highly prejudicial and disrespectful
and completely uncalled for. This
coming from a ~~man~~ man or that
on multiple occasions has yelled
at all of us to get out of our
door ways unless we are being
raped or shanked. Me being a
person who has been raped.

as a young adult and molested as a child took extreme offense to this and brought back many uncontrollable emotions. I am no longer going to be threatened by these guards of what they will do to me if I talk about these things. I will stand and fight for my rights even though I am sure I will receive further retaliation. I was also threatened by Robinson yesterday (If anybody else ~~is~~ ignores a direct order from me I will put you down) Is what he said. I was also威胁 to him directly threatening another inmates life. Since I have been here (5 months) I have done nothing but study law and BOP rules and regs. I know my rights and I know there being violated. Those guards are trying to take advantage of uneducated men and assuming they can use scare tactics and get away with it I will continue to keep record of these Constitutional torts and putting them on the record.

pg. 3 of 4

I have done nothing but give these supposed grown men (guards) the benefit of the doubt that they are actually here to protect us and keep the peace so far most of them have done nothing but poke and antagonize. I have even been witness to a fight start because of a bitch fest by one of the guards. I now have the correct address to the regional office no thanks to our supposed handbook in which most of the addresses for admin remedy are are wrong i'm sure intentionally. And will ~~not~~ send a copy of this and every other further complaint against the BOP after it is put on the record. And ~~not~~ all records that have been recorded by me prior to this incident. And a copy to the Warden off this institution. Both of my lawyers will also be informed and I will be receiving counsel as to the next step.
